# Fire Design Solutions

Look Book

# Welcome to EcoSmart Fire

Since 2004, EcoSmart Fire has been sparking design inspiration for architects, design professionals, specifiers, builders, homeowners and commercial operators around the world. From private homes to hotels, pool decks to patios, resorts to restaurants, showrooms to stadiums – and more – EcoSmart Fires are used in a myriad of installations across a wide variety of indoor and outdoor spaces.

Welcome to our Look Book: a resource for inspiration and a gateway to the design and installation flexibility afforded by the EcoSmart Fire range. Tour our showcase of installations, from built-in to freestanding, indoors and outdoors, including patio and interior designs, reinvigorated old and unused fires, Fire Pits and multi-functional Fire Tables, and installations created using one of our highly-versatile Flex Fireplace inserts. With EcoSmart Fire you're only limited by your imagination.

# We have your fire design solution

Flexibility is keynote. Whether you're creating a custom fireplace feature, renovating or reinvigorating an existing hearth, or looking for an out-of-the-box fire design, we have a stylish solution to suit your needs.

## Built-in

Elegantly designed and robustly constructed, EcoSmart's bespoke built-in fireplaces add a dramatic showpiece to residential and commercial premises.

EcoSmart Fire has a design solution for custom-made, built-in fireplaces to fit countless design briefs, floor plans, indoor and outdoor spaces. All of them underpinned by EcoSmart Fire's sophisticated engineering.

## Freestanding

Freedom, flexibility and functionality – EcoSmart's freestanding fireplaces add warmth, style and ambiance to indoor living and outdoor entertaining spaces.

Cleverly refashioning the traditional fireplace concept into a piece of flexible fire furniture means that you can enjoy the simple pleasures of an open fire whenever and wherever you want it.

From classic designs to see-through centrepieces, this collection of freestanding fireplaces is defined by its streamlined construction, sophisticated ignition system and sustainable fuel source. Boasting minimalist chic and maximum functionality, EcoSmart's fire solutions create an architectural focal point even when they are not in use.

## Contents

### Built-in

- 6 Bioethanol Burners**  
The core of all of our fireplaces, offering the ultimate in design and installation flexibility. The residential and commercial creative design possibilities are endless when you use a flue-less, vent-free bioethanol burner.
- 74 Fire Pit Kits** ●  
Our Fire Pit Kits come with everything you need to create a custom design and bring your vision to life. Choose from 7 different shapes and sizes to create a one-of-a-kind fire pit that enhances your lifestyle, space, and ambiance.
- 82 Fireplace Grates**  
Available in three different sizes, Fireplace Grates reinvigorate and bring new life to old and unused fireplaces thanks to their use of clean burning bioethanol. The ventless and self-contained Grate Series can simply be slipped into pre-existing fireplaces and lit within minutes. They are designed for effortless, seamless fireplace conversion.
- 88 Flex Fireplaces**  
Elegantly designed and robustly constructed, our Flex Fireplace inserts are available in a range of styles and sizes. Choose from our eight, multi-faceted and versatile styles - enabling 219 fireplace solutions.
- 146 Electric Fireplaces\***  
EcoSmart Fire's Electric Series provides builders, architects, designers and homeowners with a realistic flame solution that can be easily installed in residential and commercial spaces at a fraction of the operating costs when compared to gas or wood fireplaces.

\*Not available in all countries.

### Freestanding

- 156 Fire Tables** ●  
Made for entertaining, built to last – EcoSmart's range of outdoor fire tables seamlessly integrate fireplace innovation with multifunctional design.
- 198 Fire Pits** ●  
Create a social gathering point with a bioethanol fire pit! A cosy and warm fireplace will perfectly complement your contemporary indoor or outdoor space - and they have the added benefit of no smoke, embers, ash or soot, unlike wood-burning fire pits.
- 218 Designer Fireplaces**  
Our freestanding designer fireplaces are beautiful, eco-friendly fireplaces that will transform your home and warm your heart. They don't require a flue nor a chimney, or any complicated installation. This makes them incredibly quick and easy to install.

● Featuring our Triple Fuel Advantage. Choose between Natural Gas, Liquid Propane or Bioethanol. Fuel options vary depending on country regulations.

# Bioethanol Burners

---

The core of all of our bioethanol fireplaces, offering the ultimate in design and installation flexibility. Flue-less, vent-free, powered by clean-burning renewable energy, EcoSmart's bioethanol burners enable easy integration into bespoke settings. The residential and commercial design possibilities are endless.

## Built-in Bioethanol Burners

McGrath Real Estate Office, Australia  
Model: XL1200  
Designed by The United Collective and built by The Outfit Group for McGrath real estate agency, this custom joinery is beautifully contrasted with hints of golden accents and a lively orange flame at its center. The use of dark tones and white marble surround creates an elegant focal point that is subtle, yet visually striking.

## Built-in Bioethanol Burners

**1. Commercial Space, Japan**  
**Model: XL1200**  
A comforting and inviting customer experience is delivered with the inclusion of an open fire in this stunning Tokyo commercial showroom.

**2 Private Residence, Australia**  
**Model: XL1200**  
Stylish and perfectly integrated into a customised setting to create a warm space that draws you in.

## Built-in Bioethanol Burners

### 1. Rising Glen, USA

**Model: XL900**

A functional room divider becomes a stunning design feature with a peninsular fireplace that helps define the space without dominating it. Glass screens protect the flame from breezes without obstructing the view while the smoke-free flame ensures the white walls and chic furnishings remain unsullied.

[Case Study available on our website](#)

### 2. Scott Salisbury Homes, Australia

**Model: 1200DB (discontinued).**

**Achieve similar look with XL900**

A great example of connecting indoor and outdoor spaces. This two-way fireplace can be seen and experienced from the lounge and outdoor areas simultaneously. Photos: Scott Salisbury Homes

## Built-in Bioethanol Burners

**1. Churchlands Residence,  
Perth Australia  
Model: XL900**

At the centre of this custom built home is a fire design that inspires and encourages family gathering, without a TV in sight.

**2. Floreat Residence, Perth Australia  
Model: XL900 x 2**

Pairing multiple burners creates an elongated flame that provides a visual counterbalance to particularly large spaces and rooms with high ceilings.

Built-in Bioethanol Burners

**Keio Plaza Hotel, Japan**  
**Model: XL900**  
This Japanese hotel is known for its architectural design, streamlined facilities and world-class style – the same qualities that can be found in EcoSmart's XL900 fire feature.

## Built-in Bioethanol Burners

### 1. Rising Glen, USA

**Model: XL900 x 2**

For acclaimed Los Angeles architect Michael Parks, the vision behind 'Rising Glen' – a striking home in the Hollywood Hills – was to create a warm, liveable, inviting paragon of modern architecture.

[Case Study available on our website](#)

### 2. Hillside Residence, USA

**Model: XL900 x 3**

Beach House Design and Development was engaged to construct a combination fireplace and AV cabinet within a space made up of 12" poured-in-place concrete walls and a rooftop pool above – with absolutely no way to vent the fireplace. Enter EcoSmart Fire.

[Case Study available on our website](#)

“We also look at longevity and durability of the product. I started looking at all the specifications for EcoSmart and that formed the basis and we built around it.”

JEFFREY STRNAD, BEACH HOUSE DESIGN AND DEVELOPMENT

## Built-in Bioethanol Burners

### 1. Private Residence, Japan

Model: XL900 x 3

This fireplace showpiece featuring three EcoSmart XL900 Burners positioned side-by-side creates a captivating living room entrance. Stacked stone surrounds are softened by the smoke- and soot-free flickering flame, which is fuelled by eco-friendly e-NRG bioethanol.

Featuring Twin Feet Fixings Accessory with Custom Glass Fire Screen

### 2. Nagoya University of Commerce & Business, Japan

Model: XL900 x 3

A traditional wood-burning hearth is modernised with an EcoSmart fire feature comprised of three linear XL900 Burners that create one long impressive flame.

## Built-in Bioethanol Burners

**1. The Brindabella, Perth Australia  
Model: XL900**

This stunning double-sided fire feature is testament to what can be achieved when an ingenious design satisfies both the functional and aesthetic demands of a brief.

**2. Fujiya Mansions, Hong Kong  
Model: XL900 x 2**

Captivating from both sides, this custom EcoSmart Fire is the hero of the room, but without detracting from the cleverly integrated entertainment system behind the beautiful folding doors.

[Case Study available on our website](#)

“The burners take the piece from ordinary to extraordinary.”

ROSIE BLAY, LIQUID DESIGN

## Built-in Bioethanol Burners

**1. Stilhof Design Centre, Germany**

**Model: XL900 x 3**

Designer fireplaces incorporating EcoSmart Fire are a key component of the innovative Stilhof Showroom in Munich, which has become an international design hub for modern architecture.

Photo: G. Hammerbacher

**2. Enigma Interiors, Australia**

**Model: XL900**

EcoSmart Fires have been cleverly used to create some distinctive kitchen designs – and this one in Queensland, with its emphasis on quality fittings and appliances, is no exception.

[Case Study available on our website](#)

“I put forward the idea of the EcoSmart Fire to bring more warmth and character into the room. I believe fire is engaging and inviting.”

LEE HARDCASTLE, ENIGMA INTERIORS

## Built-in Bioethanol Burners

### 1. Private Residence, USA

Model: XL900 x 2

The presenter of US documentary show 'Our America' had clear views about the design of her new home – and it has now become the first-ever energy neutral residence in Santa Monica, California.

[Case Study available on our website](#)

### 2. Portsea Pool Pavilion, Australia

Model: XL900  
The elements of fire and water conspire to create a spectacular setting for a floating pool pavilion in Portsea, Victoria, where an EcoSmart XL900 Burner has been used.

Architects: Jason Camenzuli & Peter Collings from CLP Architecture  
Builders: KLE Building Group  
Joinery: Krueger Shopfitters  
Photo: Jason Camenzuli

[Case Study available on our website](#)

“Fire was incorporated as a dramatic contrasting element to water, as the two traditional elements help create an aesthetic tension and drama at night.”

JASON CAMENZULI,  
CLP ARCHITECTURE PTY LTD

## Built-in Bioethanol Burners

The Brindabella, Australia  
Model: XL900  
This outdoor entertaining area designed by Webb & Brown-Neaves is indicative of their commitment to building every home as if it were their own.

## Built-in Bioethanol Burners

**St Regis Hotel, Istanbul Turkey**  
**Opposite Page: XL900 x 3**  
**This Page: XL500 x 2**

Istanbul's modernist Art Deco-influenced St. Regis uses EcoSmart's stunning fire feature in its Petit "O" Bar (above), which offers a formal setup during the day before transforming into a relaxed lounge area when the sun goes down.

Located next door is the hotel lobby (left), which greets guests with a wall of flickering flame courtesy of three XL900 Burners. EcoSmart's longest linear burner creates a stunning horizontal piece of architecture when grouped for maximum effect.

## Built-in Bioethanol Burners

**Park Hyatt Niseko Hanazono**  
**Model: XL700's**  
The Park Hyatt Niseko Hanazono has integrated EcoSmart Fire into its modern design, allowing guests to experience the serenity of natural flames amidst the breathtaking natural scenery. EcoSmart Fire adds a unique touch of warmth and coziness to the hotel's ambiance.

## Built-in Bioethanol Burners

### 1. Private Residence, Australia

#### Model: XL700

A beautiful installation executed by Webbs Joinery and designed by Connors & Co for a client in Tamarama, Sydney. This project features the EcoSmart XL700 Burner in black including Twin Feet Fixings supporting a custom made fire screen.

Featuring Twin Feet Fixings Accessory with Custom Glass Fire Screen

### 2. Private Residence, Australia

#### Model: XL700

A minimal design approach subtly highlights a flame making it the focal point of the space. In this installation on Victoria's Mornington Peninsula, the use of neutral colours of black, white and grey offers an inviting yet simple setting where a warm flame can be enjoyed in all areas of the room.

## Built-in Bioethanol Burners

Photo: Simon Whitebread

## Built-in Bioethanol Burners

**1. Private Residence, UK**  
**Model: XL700**  
Purpose-designed baffle inserts allow homeowners to regulate and stabilise the flame while simultaneously increasing fuel efficiency.

**2. Private Residence, UK**  
**Model: XL700**  
EcoSmart Fire's elongated flame creates an instant focal – and talking – point for living spaces.

**3. The Estreal, Japan**  
**Model: XL700 x 4**  
A sophisticated take on the traditional fireplace, this indoor fire feature utilises four elongated XL Burners to create a captivating conversation pit that attracts guests with its flickering flame and soothing warmth.

## Built-in Bioethanol Burners

---

“I use EcoSmart Fire burners because they’re beautifully and thoughtfully designed, well-built and clean burning, which embodies the sustainability values I adhere to in my work.”

JAMIE HUFFMAN, FURNITURE DESIGNER

**Private Residence, California USA**  
**Model: XL700 x 2**  
San Diego custom furniture designer Jamie Huffman has long embraced the element of fire, often incorporating them into his innovative designs.

[Case Study available on our website](#)

## Built-in Bioethanol Burners

“The fireplace is the center element of the lounge, creating a focal point that divides the seating groups. It’s the feature that can be seen from all areas of the space and enhances the warmth of the walnut panelled room.”

MEAGHAN WREN, MEYER DAVIS STUDIO

### 1. AKA Hotel, New York USA Model: XL700

The intimate lounge artfully complements the traditional warmth of New York’s AKA Sutton Place with a relaxing yet of-the-moment ambiance. Numerous cozy seating areas, a spectacular marble bar and open fireplace created with an XL Burner completes the stylish scene.

[Case Study available on our website](#)

### 2. Midorinokaze Resort Kitayuzawa, Japan Model: XL700

The Noguchi Collection Relaxation Library at the Midorinokaze Resort features ultra-comfortable sofas arranged to put your mind and body at ease, with EcoSmart’s mesmerising, flickering flame creating an enticing atmosphere.

## Built-in Bioethanol Burners

**Private Residence, Japan**  
**Model: Pillar Series**  
These industrial-style, clean-burning indoor fires combine textural elements and accents, adding depth and dimension to interior spaces.

## Freestanding Designer Fireplaces

**1. Residential Space**  
**Model: Pillar 3L (Marble)**

**2. Residential Space**  
**Model: Pillar 3T (Oak)**  
Blend of materials to break up the industrial finish: the choice of timber with real oak veneer base or marble base, combined with Grade 304 stainless steel burner, and brushed brass-bracket highlights and Borosilicate glass fire screen.

## Freestanding Designer Fireplaces

**1. Residential Space**  
**Model: POP 3T (Orange)**  
Referencing popular styles from 'back in the day', with contemporary elements turning this freestanding fireplace into a modern on-trend piece that transcends trend cycles and brings ambience to your interiors or outdoor rooms.

**2. Residential Space**  
**Model: POP 3T (Black)**

**3. Residential Space**  
**Model: POP 8L (Black)**

## Freestanding Designer Fireplaces

### 1. Residential Space

#### Model: POP Series

Available in eye-catching orange, yellow, black or white, or from a variety of custom colours to suit your personal design style, architectural environment and decor.

### 2. Residential Space, New Zealand

#### Model: POP 8L (Orange)

Whether you're after an accent fire or to blend with your design style, POP Series fires allows you to bring a unique personality into your indoor or alfresco space.

### 3. Residential Space

#### Model: POP 3T (Yellow)

## Freestanding Designer Fireplaces

### 1. Residential Space, USA

#### Model: T-Lite 8

Cylindrical shaped, inspired by 'tealight candles', these weather-resistant, eco-friendly fires make a dramatic statement in any outdoor or indoor setting for trans-seasonal enjoyment.

### 2. Residential Space, Japan

#### Models: T-Lite Series

## Freestanding Designer Fireplaces

**1. Private Residence, Australia**  
**Model: T-Lite 3**  
EcoSmart Fire's signature clean lines are designed to fit within a modern architectural space, while enhancing the contemporary aesthetics of today's living environments.

**2. Private Residence, Japan**  
**Model: T-Lite Series**  
Available in two colour options and two sizes: T-Lite 3 with an AB3 Burner, and T-Lite 8 with an AB8 Burner, each providing beautiful flames and up to 11 hours of burn time.

**3. Private Residence, Japan**  
**Model: T-Lite 3**
